

Who we are

TeamHealth is one of the nation's leading healthcare organizations that specializes in hospital medicine. For more than 40 years, our national resources have helped support our clinicians to deliver the best possible care to our patients and communities. TeamHealth takes great pride in supporting our clinicians with education, training, resources and support to ensure a long and satisfying career as a hospitalist. Through our "practice made perfect" philosophy, we work to relieve you of administrative tasks and practice inefficiencies to ensure that you can focus your effort and skills on patient care.

TeamHealth hospital medicine

Our devotion to the complete care of hospitalized patients is unflagging from diagnosis to discharge—and beyond. The collective wisdom and data-driven resources we share with all TeamHealth hospitalists lead consistently to top levels of performance. TeamHealth is also an innovative resource for specialty hospitalist programs in orthopedics, general surgery, behavioral health, post-acute care, critical care and obstetrics and gynecology (OB/GYN).

Leadership opportunities

Ready to take the next step in your career to become a leader?

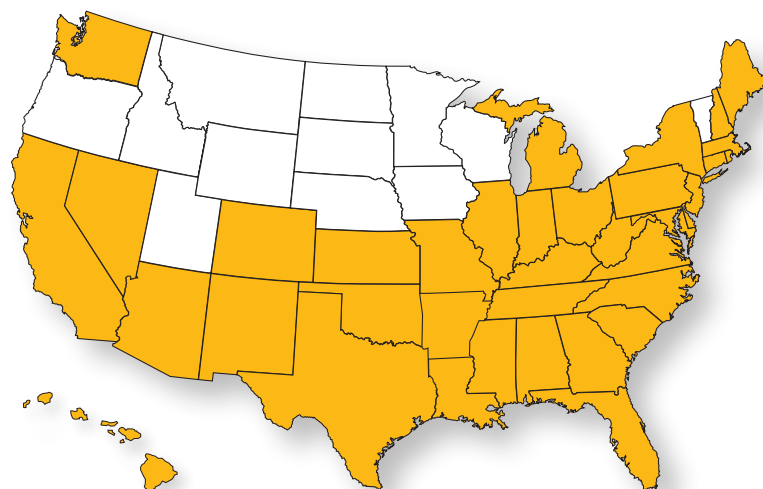

Our resources for aspiring and current leaders include:

- Mentorship
- Face-to-face education
- Online training
- Development programs

Industry leaders

TeamHealth is the **first choice for clinical leaders** when they decide where they want to practice. Not only do these leaders hold executive leadership positions in various societies and organizations, but they are recognized by the healthcare industry as being at the top of their game. In addition to impressive qualifications, they are dedicated supporters of quality and innovation in patient care and have devoted their careers to building the best organization for clinicians.

Customized Society of Hospital Medicine (SHM) membership with access to CME, exclusive access to educational resources, professional development opportunities, live events and a dynamic online community of hospitalists who actively shape and improve the practice of hospital medicine.
