

Pediatric RESEARCH

Have you considered publishing your paper in *Pediatric Research*?

- *Pediatric Research* covers Clinical Research, Basic Research, Epidemiology, and Quality Improvement.
- *Pediatric Research* highlights and encourages Early Career Investigators. Each month, the journal selects an Early Career Investigator to feature.
- The official journal of the American Pediatric Society, European Society for Paediatric Research and the Society for Pediatric Research.

Member benefits include:

- Society members are guaranteed a review of their paper submitted to the journal.
- Serves as a platform for society members' voices with the Commentaries, Letters to the Editor, Supplements, and Society Perspectives articles.
- Contributes a source of revenue that allows for the development of ongoing funding initiatives in pediatrics.
- Fast online publication and decision turnaround time (average 30 days to 1st decision).
- Offering the "Transfer Desk" which allows submissions rejected from other journals to be transferred to *Pediatric Research*.
